SHRIYA SANJAY YERANE

Nagpur, Maharashtra, India | 7757924820 | shriyayerane@gmail.com | github.com/shriya07413

PROFESSIONAL SUMMARY

3rd-year B.Tech Computer Science Engineering student with an interest in Software Development, AI/ML, Web Development, and Automation. Hands-on experience through academic projects and a one-month internship in AI development, agentic AI, and frontend web development. Familiar with Retrieval-Augmented Generation (RAG) systems, machine learning workflows, APIs, and automation tools such as Make.com and webhooks. Completed multiple job simulations in AI, Generative AI, and data analytics. Seeking an internship to apply and grow these skills in a real-world engineering environment.

EDUCATION

B.Tech in Computer Science Engineering — Symbiosis Institute of Technology, Nagpur *2024 – 2028*

3rd Year | CGPA: 7.14

Class XII: 58.2% | Class X: 71.2%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++, JavaScript, Dart
- **Web Development:** HTML, CSS, JavaScript, React
- **AI / Machine Learning:** Machine Learning, Generative AI, RAG, Agentic AI
- **Frameworks:** FastAPI, Streamlit, Flutter
- **Databases:** SQL, SQLite, Supabase, Firebase
- **Tools & Platforms:** Git, GitHub, Make.com
- **AI/ML Libraries:** FAISS, LangChain, Pandas, NumPy, Scikit-learn, XGBoost

INTERNSHIP EXPERIENCE

AI Development Intern (Agentic AI & Frontend Development) — PremitiveKey*May 20 – Jun 30, 2026*

Mumbai

- Developed and optimized responsive web pages using **HTML**, **CSS**, and **JavaScript**, improving **UI/UX** consistency and overall website performance.
- Explored **agentic AI** workflows and built workflow automations using **Make.com** and **webhooks**, including **WhatsApp integration** and product catalog updates, to streamline recurring business tasks.
- Applied **form validation**, basic **SEO** practices, and **testing/debugging** processes to ensure functional and reliable web features.

PROJECTS

Machine Learning-Driven Auto Scaling and Cost Optimization Framework for Cloud Resource Management

- Building an **ML**-driven framework using **XGBoost** and **LSTM** models to predict cloud resource requirements and support automated auto-scaling decisions.
- Developing a **FastAPI** backend to serve **ML** predictions and a **Streamlit** dashboard for visualizing scaling recommendations and cost metrics, aimed at optimizing cloud resource allocation and reducing cost.

Trustworthy RAG System

- Designed a backend-focused **Retrieval-Augmented Generation (RAG)** system that retrieves relevant documents/data and generates grounded AI responses using **Python**, **LangChain**, **FAISS**, and **sentence-transformers**, with **SQLite** and **Streamlit** supporting data storage and the interface.

Intelligent Chatbot

- Built an intelligent chatbot as an academic project, applying **conversational AI** concepts to interpret user queries and generate relevant responses.

Opening Shade in Rainy Season Using Arduino

- Developed an **Arduino**-based academic project to automatically operate a shade/cover system in response to rain, applying **embedded systems** and hardware-software integration concepts.

CERTIFICATIONS / JOB SIMULATIONS

- Technology Job Simulation — Deloitte (via Forage)
- GenAI Job Simulation — Forage
- GenAI Powered Data Analytics Job Simulation — Forage
- Partnering with AI in the Workplace Job Simulation — Forage
- Data Analytics Job Simulation — Deloitte (via Forage)
- Cybersecurity Job Simulation — Forage

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Represented at CBSE Nationals in Kho Kho (2015–16 and 2017–18) and CBSE Nationals in Football (2017–18).
- Member, SIT Nagpur Futsal Team — 2024–2025 and 2026–2027.
- Sports Coordinator, SIT Nagpur Sports Club — 2024–2025.
- Participated in hackathons, including Smart India Hackathon (SIH), and various college-level technical events and competitions.
